

Coding & Consulting Solutions for Behavioral Health

Behavioral health organizations need to have the work flow in place to support accurate diagnostic reporting. The DSM-5 is the primary code source used by clinicians for behavioral health diagnoses, but the ICD-10-CM code set is required for reporting and claim submissions.

LexiCode has experience with:

- Facility and physician based coding
- Physician leveling
- Mental health support for military veterans
- Child and adolescent mental health
- Older adult mental health services
- Experts in coding the following disorders:
 - Chemical dependency/substance abuse
 - Anxiety and depression
 - Eating disorders
 - Dissociative disorders

LexiCode offers a broad range of HIM coding and consulting solutions as well as expertise in the healthcare market to meet your needs. Our 35+ years of success in all healthcare settings has been built upon the delivery of high quality HIM/coding solutions utilizing only seasoned AHIMA credentialed professionals. We pride ourselves on quality and compliance - 96% accuracy for MS-DRG, APR-DRG, APC, and CPT with ongoing internal staff education.
