

Ambulance & Emergency Coding & Consulting Services

LexiCode provides certified ambulance coders and registered nurses that will perform accurate coding, while also providing our clients with feedback to assist with documentation improvement.

Medical emergencies can be a trying time. Patients would be better served focusing on their recovery rather than hassling with payment issues. With our large pool of knowledgeable coders we can customize coverage that works best for you and your patients.

LexiCode Coding and Services Benefits Include:

- Trained and experienced NAAC and AAPC credentialed coding specialists
- State of the art international coding center
